

# Oceanpower

## High-quality craftsmanship

With new system , Your first best business choice

Model: DW150TC

Precooling

Quick Cooling

Safety Protection

Standby Mode

Low Mix Sensor

# ADVANTAGES & BENEFITS

## SOFT SERVE FREEZER DW150TC

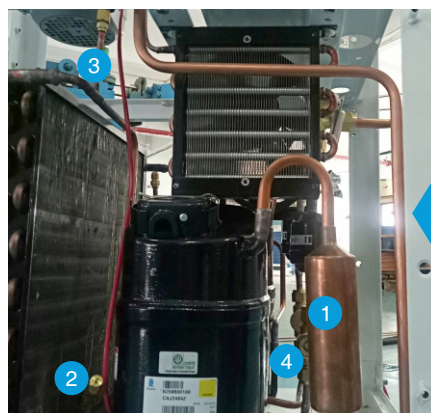

### Functions centralization

A new advanced system enables the operation easier. Be equipped with automatic, cleaning, sleep and other basic operating functions and a variety of alarm prompts. Rebound pistons—control ice cream making speed Automatic handles homing—press the handles and auto return back.

### 2HP France Tecumseh Compressor

Using imported French Tecumseh compressor Adopting R404A low temperature environmentally friendly refrigerant Achieving extremely fast cooling effect Getting higher production output

### Cooling System

1. Increase the Gas-liquid separator (reduce the pipeline buffer, improve the cooling efficiency);
2. Increase the high pressure needle valve (detect the high pressure);
3. Increase high pressure switch (protect the compressor and machine under high pressure);
4. Increase the sight glass (observe the cooling condition)

### Mixture Agitator

Make the temperature of the mixture more uniform and have better liquidity.

## TECHNICAL DATA

Model	DW150TC
Flavors	2+1mixed
Capacity	50L/H
Mix Hopper	2*12L
Cylinder	2*2L
Power	3000W
Main Compressor	2HP
Standard	Pre-Cooling, Stainless Steel Shell, Automatic Rebound Valve Body, Mixture Agitator, Stainless Steel Handle
Options	Air Pump / Gear Pump
Cooling System	Air Cooled
Refrigerant	R404A(Standard ) / R448A(Optional)
Voltage	220V 50Hz/60Hz
Net / Total Weight (Kg)	175 / 225.5kg
Dimension(mm)	540 *770*1450mm
